

Kolo Freight (fictional test company)

Same-day trucking for small traders in Lagos.

Seed round: raising USD 500,000. Contact: founders@kolo.example

Problem

Small traders in Lagos wait 3 to 5 days for goods from Apapa port.

Informal trucking is unreliable and prices change daily.

Solution

An app that books vetted trucks in under 10 minutes with fixed prices.

Live tracking and proof of delivery for every trip.

Market

About 40,000 small importers in Lagos (our estimate from port data).

Serviceable market: USD 120 million a year in last-mile freight.

Traction

Monthly revenue: NGN 18 million (August 2026), up from NGN 6 million in February 2026.

420 paying customers; 35% of revenue from repeat bookings.

Business model

We take a 12% commission on each trip. Average trip value: NGN 85,000.

Gross margin 9% after payment and insurance costs.

Team

Adaeze Okafor, CEO: 6 years in operations at a national logistics firm.

Tunde Bello, CTO: built dispatch software used by 300 drivers.

The ask

Raising USD 500,000 on a SAFE.

Use of funds: 50% engineering, 30% driver onboarding, 20% expansion to Ibadan.

18 months of runway.
